

FORT PRINCE OF WALES

The accompanying photograph shows some of the remains of the Fort Prince of Wales at Churchill, Manitoba—Canada's most northern fortress in the days when British and France were battling for supremacy on the North American continent.

It took 40 years to build this stronghold, the walls of which were 60 feet thick and mounted 40 cannons. It is stated that it rivaled London and Fort Quebec for its strength. Yet the fort was scarcely in operation when the war ended.

to a small French fort of three months' construction under the command of Adolphe-Thomas, without a single shot being fired.

A small creek on the left bank has now been carried out by the National Park Service at Ottawa and is a small creek of its former size in almost the same condition as the fort was 40 years ago.

It is situated in the same place as the fort was built.

New Zealand Road Graded With Silver

AIKLAND, N.Z.—New Zealand isn't a land of millionaires but even the poorest roads are graded with silver.

A LUCKY CATCH
RECENTLY, the Lady Hickey had a slight bug on her fishing line, the result of it.

It was a modern, streamlined Australian parallel in the real-life story of a Sydney woman who manages one of the biggest chicken hatcheries in the Southern Hemisphere.

THE CHICKEN TEAM—Mrs. Phyllis Pennington, of London, Ont., recent graduate of University of Western Ontario, is the first woman ever ordained in London conference of the United Church of Canada. She was ordained at Windsor, Ont.

Australian Woman Runs Large Hatchery

SYDNEY, Australia.—The United States has "The Egg and I," but a modern, streamlined Australian parallel in the real-life story of a Sydney woman who manages one of the biggest chicken hatcheries in the Southern Hemisphere.

She is Mrs. A. C. Pennington, of London, Ontario, recent graduate of University of Western Ontario, is the first woman ever ordained in London conference of the United Church of Canada. She was ordained at Windsor, Ont.

Mrs. Pennington, for instance, has the job of feeding the eggs for fertility after they have been in the incubator from a week to 10 days.

GOLFING FOR ELDERLY FOLK

A few years ago while talking to a businessman, this is what he said:

First, one who has learned to play golf is natural, the only way to play. First, one who has learned to play golf is natural, the only way to play.

There is much to be gained from playing golf. There is much to be gained from playing golf.

There is much to be gained from playing golf. There is much to be gained from playing golf.

There is much to be gained from playing golf. There is much to be gained from playing golf.

INTERESTING STORY

VAGABOND

—BY R. WILSON

DETECTIVE CHARLIE DOUGAN at dinner the following night when he stopped at the hotel.

He found Sam Clark's body in the room. "Clark," he announced, "he hasn't shown up yet. Wherever he went, he must have been there."

Dugan answered over to the leg and said, "You're right, but I haven't seen him since."

Next morning, the worried Dugan came to Dugan's hotel room. "We found Sam Clark's body in the room," he said.

"Clark," he announced, "he hasn't shown up yet. Wherever he went, he must have been there."

Barren-Ground Caribou Investigation

WHEN the prairie of western North America was first explored by white men, they reported vast herds of buffalo which formed the basis of the economy of the region.

The Arctic region of the Northwest Territories found immense herds of caribou, which provided aboriginal clothing and food for the native populations of Eskimo and Indian.

The barren-ground caribou still exists in the Arctic region of the Northwest Territories, but its numbers have been reduced by the activities of the fur traders.

Core Of Roof Makes Longer Service Life

Homeowners will find roofs will last longer and retain their good appearance if the following rules are observed:

1. Stay off the roof. When necessary for repairs to be made, they will provide better and more protection than the roof itself.

2. Never walk on a sloping roof. If necessary, use a ladder and a rope to reach the roof.

3. Keep large trees trimmed to prevent overhanging limbs from reaching the roof.

4. Keep large trees trimmed to prevent overhanging limbs from reaching the roof.

5. Keep large trees trimmed to prevent overhanging limbs from reaching the roof.

6. Keep large trees trimmed to prevent overhanging limbs from reaching the roof.

7. Keep large trees trimmed to prevent overhanging limbs from reaching the roof.

8. Keep large trees trimmed to prevent overhanging limbs from reaching the roof.

9. Keep large trees trimmed to prevent overhanging limbs from reaching the roof.
